St. Petersburg, FL 33747-0158

This letter is written to express our appreciation for the excellent work done by Dalmoworks in developing and hosting our Black Palm Restaurant website.

From the first day of our working with Dalmoworks, we have been amazed with the attention to the detail of our input conversations as our website was developed and put online. In fact, our domain name was registered and displayed on the internet within hours of our go-ahead, and every communication since with their staff has been efficiently executed way beyond our expectations.

The process of creating a website for our business that we can navigate, obtain marketing analyses from, and have our potential customers access and understand easily was made possible by working with the "Professionals" at Dalmoworks.

We sincerely appreciate their total effort and would recommend Dalmoworks to anyone who knows that working with the best is a surer path to success.

Tony Infante  
Managing Member, Black Palm Restaurant LLC
