DalmoWorks Corp  
Director Technical Support Services  
P.O. Box 530158  
St. Petersburg, FL 33747-0158

To all concerned parties;

Please accept this letter as testimony to my experiences with the support staff at Dalmoworks Corp. Please feel free to use this letter in any manner that you see fit, that would benefit your team and company as you certainly deserve the highest recommendations.

The support staff at Dalmowork has been by far, the most professional, responsive, knowledgeable, and respectful team I have ever had the pleasure of working with. I have been a key player in the development of several large web based projects ranging in size from \$5,000 to several million dollars, and have dealt with a wide array of Web development companies along the way.

In my 8 years of experience in dealing with such companies, I have never encountered such an extraordinary level of support that the Dalmoworks team delivers day after day and issue after issue. Your staff's response time to our multiple requests and their pro-active attitude is simply incredible. We appreciate the integrity and devotion that John, Sujay, Carissa, and the entire support and development staff have extended to our project.

In the tangled web of development companies that can be found all over the internet, of which all promise potential clients the world.....Dalmoworks delivers!

I can only hope that your company appreciates and understands the benefits that such a world class support staff brings to your table. I cannot recommend Dalmoworks strongly enough, to any one looking for cutting edge web development, backed up by a world class support team.

Sincerely and with extreme gratitude;

Capt. Josh Foster

Director of Content Management & Web Marketing
