We would like to express our gratitude to you and your design team at DalmoWorks. We have been with your company since 1999 when our company was only a little over a year old. As we have grown through out the years we have had to make many changes to our web site including two complete makeovers!

Although starting with a basic web site, our current site that now includes an employment application and gift certificate order form on a secure server has been a tremendous boon to our business. It has allowed our business to reach those who would rather shop on line or who live in another state and wanted to give a loved one a gift at our business.

On our first makeover 2 years ago we completely changed the look and appeal of our Salon and Day Spa and placed the look of our web site in your hands. As usual I said WOW when your design team was able to capture the same look on our site. We were very happy to say the least.

Here we are now 2 years beyond that time and have again grown out of our space. We are relocated in our new 6000 square foot salon and spa, and again have taken on another whole new look. Once again we turned to your company to "capture" our new look on our web site and as usual your staff and team came through without a hitch. WOW again!

We cannot express our gratitude enough for your help through out our growth over the years. Now we are beginning another new venture of opening our new Wine Down Bistro and will need your services again. I recommend and will continue to recommend your services to everyone. The advantage of developing a long-term relationship goes miles. Thank you again for all you have done for us here at Ja`Ross Salon and Day Spa.
