St. Petersburg, FL 33747-0158

Dear DalmoWorks:

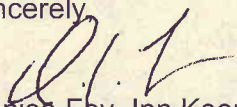

We wanted to take an opportunity to thank DalmoWorks for over 8 years of excellent service. The Pine Garth Inn was founded in 1989 and DalmoWorks put our website together in 1998. The Pine Garth Inn is the oldest and one of the most successful Harbor Country Bed & Breakfasts. Every year, we receive numerous regional and local awards and thousands of visitors to our website. We are proud to say that we regularly receive compliments about our website. Also, upon viewing our site, many of the area's new businesses have sought your help in putting together their sites.

From a service standpoint, we have always received great advice and support from you. We have experienced little, if any technical problems and our calls have always been met with patience and professionalism. Your user friendly and easy to access online statistical reporting is excellent. Additionally, our ability to check and answer email from any location is a real time saver and convenience.

One of the aspects we have been most impressed with is your continued interest in making our site more effective. We receive regular email updates that pique our interest. Also, we receive personalized email from the site developer educating us as to the latest ways to use and improve our site.

We look forward to our future with DalmoWorks! Business partners like you that make all the difference. Thank you for many wonderful years of service, support and dedication.

Sincerely,

Denise Foy, Inn Keeper
