John Heintz, Director of Systems Design
Dalmoworks Corp
P.O. Box 530158
St. Petersburg, FL 33747

Dear Mr. Heintz:

I am extremely impressed with your work to date. Your graphics design team has exceeded my expectations. There are many people in the technology business that think they are web designers; your team's expertise has driven our processes to new levels.

It is that understanding of the business that makes the difference. Anyone can make a website glitter but it is the business expertise that represents the true value proposition of Dalmoworks.

I look forward to seeing our new on line shopping cart, which will allow customers to purchase Motion Computer Tablets directly from our company using credit and purchase cards. This is truly an exciting time to be in technology and I am glad we met you and your dedicated team to outsource our critical needs.

Thanks for all your hard work.
