Dear John,

We have had our website with DalmoWorks for seven years. In this time, our company has undergone many changes. Those changes have required numerous modifications to our website. I have found John and his staff to not only be thoughtful and creative, but very responsive to our website needs. John has also presented several innovative ideas, which have assisted Preventive Medicine, PC in growing our business. As a client, I am available to answer any questions about our experience with DalmoWorks.

Best regards,

Alfred L. Pinto, DC
President
