Dear John,

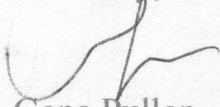

I wanted to take a moment to extend my sincere thanks for your help in developing our website. We were very reluctant to jump into e-commerce, all of us being such neophytes when it pertains to computers. I stressed to you the need for a real hands-on approach, and you truly delivered.

Our online store is up and running, we have made significant sales, have had our colleagues take note, and you are still helping us evolve! We were recently able to sell an item for \$500 more on the website than it had been listed on ebay 1 week earlier!

I am confident that our sales and exposure will grow exponentially as we continue to follow your suggestions. If you can guide this group into the 21st century, most of your clients should find this a cakewalk.

Thank you again John. I look forward to an amazing growth year with your assistance.

Sincerely,

Gene Pullen
